

Streamlining IT Procurement

Automating Standard Laptop Orders with Flow Designer

Phase 1 - Brainstorming & Ideation

Purpose: Define the project idea, identify the procurement problem, and propose an automated solution.

Section	Details
Project Idea	Automate standard laptop procurement requests using ServiceNow Flow Designer.
Problem Identified	Manual laptop ordering can involve repeated data entry, approval delays, and inconsistent request handling.
Proposed Solution	Create a standardized request process with automated flow, approvals, task creation, and status tracking.
Expected Outcome	A consistent and traceable laptop-order workflow with less manual effort.

Project Note: This phase document is prepared for organizing the TN Skills project evidence and can be supplemented with your actual screenshots/configuration details.
