

Streamlining IT Procurement

Automating Standard Laptop Orders with Flow Designer

Phase 6 - Documentation

Purpose: Prepare technical and user documentation for the completed project.

Section	Details
Project Documentation	Document the objective, requirements, design, implementation, testing, and results.
Configuration Documentation	Record the important Flow Designer components, triggers, actions, conditions, and approvals.
User Guide	Explain how a user submits a laptop request and checks its progress.
Evidence	Include relevant screenshots of configuration, flow execution, requests, approvals, and completed tasks.

Project Note: This phase document is prepared for organizing the TN Skills project evidence and can be supplemented with your actual screenshots/configuration details.
